1. Claims 1, 3, 5-10 and 12-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The addition of the recitation that the entire surface of the activated carbon is available for contact with the oil does not appear to have basis in the specification as originally filed, and therefore appears to be new matter. In addition, claims 7-9 now appear to be incompatible with amended claim 1, as only the foam material is disclosed by the specification as originally filed as being water absorbent (see the specification, the paragraph spanning pages 2 and 3).

2. Claims 1, 3, 5-10 and 12-21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher Upton whose telephone number is 571-272-1169. The examiner can normally be reached on 8:30-6:00, off every other Monday.
